

another way back

big black book

pretty girl friend

best night school

under the tree

mother dear

play by ear

people are kind

where you live

we also found

away from home

my own ball

morning may end

the color red

stand and tell me

open this thing

never go near

bring the box

find both presents

while we leave

hand up high

first better read

shall we run

think and wish

the call came

look into the house

only five left

because we must

please me more

why next year

until I saw

we should never

these five

she ran far

a white box

I am over it

we got far

four men

such a morning

we could go soon

say please too

upon the right box

use each book

I seem to be last

most kind of you

more than two

live and let live

most mornings

I made sure
