

always around

carry clean clothes

longer letters

turn and walk

yellow dog

hard head

along the door

every eight years

buy a fine car

I ate cold cuts

carry the wash water

the eyes on my face

he gave me money

I love my sister

help hold him

now it's six o'clock

start and stop

jump off fast

thank the woman

order fine food

green dress

it didn't grow

sing in a show

the second part

sleep in a bed

go to town early

don't help her

I hope not

ask for a brown coat

it was close

do you want anything

a small, funny hat

does it work

full of hot food

fire is hot

a fat fly sat there

don't fall today

happy for myself

hear what goes on

keep the same

we took a small ride

once we stop

seven might go

a pair of books

set those down

sit on the bed

I went yesterday

yes, you can

through the house

try to hear

the third dress

write ten books

warm clothes
